

# Current Year Income Assessment 2021/22

When calculating a student's financial entitlement, the total household income from tax year 2019-20 is normally taken into consideration. However, if your total household income has dropped by 5% or more since tax year 2019-20, this entitlement can be assessed based on the current tax year.

Complete this form to give your estimated income for tax year 2021-22. If you're awarded a current year income assessment, we'll use your finalised 2021-22 household income to work out how much the student can get if they apply for funding based on household income in the 2022/23 academic year. If your income will fall by a further 5% in 2022-23, you can apply for a further current year income assessment.

To find out how we'll use the information you provide go to [www.studentfinanceneni.co.uk/privacy-notice](http://www.studentfinanceneni.co.uk/privacy-notice) to read our Privacy Notice before completing this form.
